- Managed social media profiles of multiple clients
- Designed and implemented SEO strategies specific to products and industries
- Designed client specific frameworks for implementing Adjetter's customizable CRMs
- Clients worked with: Featherlite; Nova Specialty Surgery; Windmills Craftworks

## CORE VALUES

### EMPATHY

I believe that design starts with empathy. It is important to first understand the people we design for in order to achieve a user centered design process. Cultivating empathy in every phase of our work enables us to maintain focus on what's relevant.

### FAIL FAST

I challenge my team to embrace failure to move forward. I believe in rapid prototyping in order to de-risk the growth process of a project. Making abstract ideas tangible enables us to facilitate meaningful conversations and feedback from our customers and partners.

### HOLISTIC SOLUTION

My design process aims to create social, cultural, ecological, and economic impacts, as well as long-term organizational and stakeholder value.

## EDUCATION

2014 - 2016
